FEBRUARY 1951. NUMBER 2

Penicillin Treatment of Infectious Mononucleosis: Comparison of Effects in Ninety-Nine Patients With and in Sixty-Seven Patients Without Penicillin Therapy. T. Bennike, M.D., Copenhagen, Denmark 181

Combined Administration of Desoxycorticosterone Acetate and Ascorbic Acid:
I. Clinical Results in Rheumatoid Arthritis and Laboratory Studies. J. B. R. McKendry, M.D.; C. A. Schaffenburg, M.D., and E. Perry McCullagh, M.D., Cleveland .. 190
II. Experimental Observations. C. A. Schaffenburg, M.D.; J. B. R. McKendry, M.D., and E. Perry McCullagh, M.D., Cleveland 199

Q Fever in California. III. Aureomycin in the Therapy of Q Fever. William H. Clark, M.D.; Edwin H. Lennette, M.D., and Gordon Meiklejohn, M.D., Berkeley, Calif. 204

The Eisenmenger Complex and Its Relation to the Uncomplicated Defect of the Ventricular Septum: Review of Thirty-Five Autopsied Cases of Eisenmenger's Complex, Including Two New Cases. Arthur Selzer, M.D., and Gert L. Laqueur, M.D., San Francisco ... 218

FEBRUARY—*Continued*

PAGE

Observations on a Case of Idiopathic Hypoparathyroidism. Arthur Jordan, M.B., D.Sc., M.R.C.P., and A. R. Kelsall, M.D., M.R.C.P., Sheffield, England 242

Allergic Granuloma of the Lung: Clinical and Anatomic Findings in a Patient with Bronchial Asthma and Eosinophilia. Joseph C. Ehrlich, M.D., and Alfred Romanoff, M.D., New York 259

Chronic Regurgitation Jaundice as the Presenting Sign in Sarcoidosis. Philip H. Ross, M.D., Waco, Texas, and Bernhard J. Weinberg, M.D., Chicago 269

Syncope in Aortic Stenosis. James F. Hammarsten, M.D., Minneapolis 274

Case Reports:

Eosinophilic Leukemia with Report of a Case. Willard J. Carmel, M.D., Aspinwall, Pa.; Alexander M. Minno, M.D., Rochester, Minn., and W. Leigh Cook Jr., M.D., Pittsburgh 280

Progress in Internal Medicine:

Syphilis: A Review of the Recent Literature (To Be Concluded). Herman Beerman, M.D.; Leslie Nicholas, M.D.; William T. Ford, M.D., and Minerva S. Buerk, M.D., Philadelphia, with the Collaboration of Frank W. Reynolds, M.D., and T. Guthe, M.D., Geneva, Switzerland 287

INDEX TO VOLUME 87

Book Reviews are grouped together and indexed under that heading in alphabetical order under the letter B.

Abdomen: See Peritoneum; etc.

Abnormalities and Deformities: See under names of organs and regions, as Heart

Acid
- ascorbic: See Ascorbic Acid
- fatty, in blood: See Blood, fats and lipoids

ACTH
- adrenal steroids, studies of effect on [review by Reimann], 133
- cortisone and, in active infections [editorial], 1
- cortisone and, in essential hypertension: establishment of renal glycosuria [Dustan & others], 627
- histamine and, allergy: review of literature from August 1948 to September 1950 [Rackemann], 598
- in lobar pneumonia, effect [review by Reimann], 142
- in poliomyelitis, given after onset, effect [review by Reimann], 156
- in pulmonary tuberculosis [review by Reimann], 150
- in rheumatic fever, use [review by Reimann], 167
- ulcerative colitis and regional enteritis, treatment with: significance of fecal lysozyme [Gray & others], 646
- in virus pneumonia, effect [review by Reimann], 140

Adenomatosis: See Lungs, tumors

Adrenal Preparations: See Cortisone

Adrenocorticotropic Hormone: See ACTH

Albumin
- salt-poor human: intravenous use of: effects in 34 patients with decompensated hepatic cirrhosis [Post & others], 775

Allergy
- granuloma of lung: clinical and anatomic findings in patient with bronchial asthma and eosinophilia [Erlich & Romanoff], 259
- histamine and ACTH: review of literature from August 1948 to September 1950 [Rackemann], 598

Alpha Gamma Delta Women's Fraternity
- course in rehabilitation sponsored by, 175

American Association of History of Medicine
- annual meeting, 899

American College of Physicians
- postgraduate courses arranged by, 622

American Physicians Art Association
- show at A.M.A. Atlantic City, N. J., meeting, 899

Anemia
- erythroblastic: familial leptocytosis (Cooley's anemia and Cooley's trait): observations on three families with related bone marrow activity [Hamilton & Fowler], 825
- hemolytic: acquired, primary thrombocytopenic purpura and: evidence for common etiology [Evans & others], 48
- hemolytic: chronic, paroxysmal nocturnal hemoglobinuria with: report of case with postmortem observations [Ellenhorn & others], 868
- pernicious: achlorhydria noted in [Molofsky & Hollander], 111
- pernicious: argentaffin cells and relation to disease [Molofsky & Hollander], 103
- pernicious: changes in pyloric gland organ in course of disease [Molofsky & Hollander], 101
- pernicious: gastric changes in [Molofsky & Hollander], 97 and 110
- pernicious: intestinal metaplasia of stomach mucosa in course of disease [Molofsky & Hollander], 100
- pernicious: pepsin determinations in [Molofsky & Hollander], 116
- pernicious: study of chlorides in [Molofsky & Hollander], 119
- splenic: Gaucher's disease with megaloblastic bone marrow: response to therapy [Krim & others], 418

Antibiotics: See also Aureomycin; Diplomycin; Penicillin; Streptomycin; Terramycin, and under names of diseases, as Brucellosis
- antistreptolysin O response following hemolytic Streptococcus infection in early childhood [Rantz & others], 360
- in infectious diseases, study [review by Reimann], 128
- synergism and antagonism, studies: interference of chloramphenicol with action of penicillin [Jawetz & others], 349
- in syphilis therapy, new [review by Beerman & others], 451

Antibiotics and Chemotherapy
- new journal, 622

Antigen and Antibodies: See Streptococci, and under names of diseases, as Syphilis

Antistreptolysin: See under Antibiotics

Aorta
- Eisenmenger complex and its relation to uncomplicated defect of ventricular septum [Selzer & Laqueur], 218
- stenosis: syncope in [Hammarsten], 274

Appointments, 323

Armistead, G. C., Jr.
- Triethylene melamine in treatment of neoplastic disease: compound with nitrogen-mustard-like activity suitable for oral and intravenous use, 477

Arteries: See also Aorta; Blood Pressure, High
- "protective" arterial lesions in involved lobes: multilobar pulmonary venous obstruction with pulmonary hypertension [Edwards & Burchell], 372

Arthritis
- desoxycorticosterone acetate and ascorbic acid, effects on animals with rheumatoid [Schaffenburg & others], 199
- desoxycorticosterone acetate and ascorbic acid, results of administration of combined in rheumatoid [McKendry & others], 190
- desoxycorticosterone acetate and ascorbic acid in treatment of rheumatoid [Littman & others], 707
- long term management necessary until positive cure discovered for rheumatoid [McKendry & others], 190

Ascites
- sodium diet, low, experiences in management of [Phillips & Phillips], 636

Ascorbic Acid
- desoxycorticosterone acetate and, combined administration [Schaffenburg & others], 199
- desoxycorticosterone acetate and, results of combined administration in rheumatoid arthritis [McKendry & others], 190
- desoxycorticosterone acetate and, in treatment of rheumatoid arthritis [Littman & others], 707

Associations: See Societies

Asthma
- bronchial, clinical and anatomic findings in patient with eosinophilia and: allergic granuloma of lung [Erlich & Romanoff], 259

Aureomycin
- bacterial endocarditis, treatment: report of nine cases together with study of synergistic action of aureomycin and penicillin in one case [Spies & others], 66
- bacterial flora of throat, alterations in during oral therapy with [Meads & others], 533
- bacterial infections, cases of successful use in [review by Reimann], 129
- cultures of tissues, effect on [review by Reimann], 131
- therapy: See under names of diseases, as Herpes Simplex; Malaria; Pneumonia; Rickettsial Diseases; etc.
- toxic effects [review by Reimann], 131

Bacilli: See Bacteria

Bacteria: See also Streptococci
diseases caused by [review by Reimann], 143
flora of throat, alterations during oral therapy with aureomycin [Meads & others], 533

Baynes, A. H.
Renal function in diabetic nephropathy, 570

BCG Vaccine: See under Tuberculosis

Bean, W. B.
Postpartum necrosis of anterior lobe of pituitary gland: Sheehan's disease, 517

Beerman, H.
Syphilis: progress in internal medicine: review of recent literature, 287
Syphilis: review of recent literature, 424

Bennike, T.
Penicillin treatment of infectious mononucleosis: comparison of effects in 99 patients with and in 67 patients without penicillin therapy, 181

Benson, J. A., Jr.
Treatment of ulcerative colitis and regional enteritis with ACTH: significance of fecal lysozyme, 646

Bernstein, J. L.
Triethylene melamine in treatment of neoplastic disease: compound with nitrogen-mustard-like activity suitable for oral and intravenous use, 477

Blood: See also Anemia; Leukemia, and under names of diseases, organs and regions
fats and lipoids: hyperlipemia, essential [Movitt & others], 79
platelets: See Purpura

Blood Pressure, High
cortisone and ACTH in essential: establishment of renal glycosuria [Dustan & others], 627
essential: effects of veriloid® on: new derivative of Veratrum viride [Gropper & others], 789
hypertensive cardiovascular diseases and [Corcoran & others], 732
malignant, recession of neuroretinopathy during course of: its occurrence in 15 patients who did not receive directed therapy [Keith & Wagener], 25
pulmonary, multilobar pulmonary venous obstruction with: "protective" arterial lesions in involved lobes [Edwards & Burchell], 372

Blood Vessels: See Arteries; Cardiovascular Diseases; Veins

Boeck's Sarcoid: See Sarcoidosis

Bondy, P. K.
Determination of serum protein-bound iodine as routine clinical procedure, 817

Bone Marrow
megaloblastic, Gaucher's disease with: response to therapy [Krim & others], 418
miliary tuberculosis of, resolution with dihydrostreptomycin therapy, 594

Bones
generalized torulosis with involvement of [Wiener], 713
